## \$2760 Raised By The Youth Center

The Youth of Pahokee assisted by many grown folks and the full facilities of Radio Station WRIM and its genial, civic minded and public spirited manager, Al Robinson, raised \$2,760.00 in an all day drive Wednesday to cover cost of operation of the Center. Many items to be used in the Center were also donated by fine citizens of Pahokee and Canal Point.

Money was still coming in as this newspaper went to press on Thursday afternoon and the youngsters are hopeful that the amount may reach \$3,000 for the grand total. A concerted and well organized drive was consummated at seven o'clock Wednesday afternoon when the Station went off the air at its scheduled closing hour.

Youngsters and oldsters alike join in sending sincere thanks to each and every person who participated in any way in making the drive a huge success.

## FFA TO DAYTONA

The Pahokee Chapter, Future Farmers of America, will be represented at the annual convention of the Florida Future Farmers of America in Daytona Beach by Willie Veal, Don Kelly, Jimmy McElheny and Lee Granims.

## Future Farmers Talk To Lions

The agricultural activities of the Pahokee Chapter, Future Farmers of America, were explained to Canal Point Lions at their weekly dinner meeting by three members, Willie Veal, chapter president, Warren Repper and Renzo Echols, who, together with N. R. Norman, chapter advisor, were dinner guests of the Lions. The FFA boys told of their individual projects as well as collective chapter projects, both in the fields of vegetable growing and cattle breeding and raising. They said they found working with cattle most interesting but net profits in this work during the past year were curtailed by cattle rustling, a total of five head being lost in this manner by individuals within the chapter in the last 12 months. Local police officers are cooperating with the chapter in an effort to put a stop to these thefts, they said.

## No Airport Liquor License This Year

The county commission, which ninety nine percent of the time is unanimous in its decision, split three to two again this week over a proposed legislative act which would make a liquor license available at Palm Beach International Airport.

A special act to authorize the license has been a part of the board's legislative program. This week, the county's legislative delegation informed the board that unless the commission was unanimous the bill would not be introduced.

To which Commissioner Paul Rardin declared it will never be unanimous as long as I am on the commission." Rardin moved that the bill be withdrawn and was supported by Commissioner Roy Michael.

However, Commissioners Lake Loyal, Kenneth Foster and Ben Sundy, joined to defeat the motion.

Michael then moved that the commission chairman inform the legislative delegation that following a democratic process, the board had considered the question and even though not unanimous on the matter, the majority voted in favor of the bill. The majority, should be recognized, Michael said, and a minority should not be in a position to rule.

Said Commissioner Rardin, "I am happy to see a minority rule if it will prevent one more liquor license in Palm Beach County."

With Rardin dissenting, the board voted to inform the legislature of the commission's action on the bill.

## Miss & Mr. Pahokee Chosen For 1959

Joyce Brown and James Smith, both members of the Sophomore Class at Pahokee High School, won the honorary titles of "Miss Pahokee High School" and "Mr. Pahokee High School" for 1959 at the annual contest held Tuesday night in the high school auditorium. Only members of the Junior, Sophomore and Freshman Classes were eligible to compete in this contest which was sponsored by the Senior Class.

## City Withdraws Its Offer To State To Buy 150 Acres

In a move to get mail carrier service for Pahokee, the City Council in regular session Monday night passed a resolution petitioning the U. S. Postoffice Department to institute city mail delivery service, and offering the department the full cooperation of the city if such a program is authorized. At the last meeting of the Pahokee Chamber of Commerce Congressman Paul Rogers informed the chamber by letter that the Postoffice Department is currently making a survey of mail service facilities in Pahokee and city officials hope that this survey will result not only in a larger and more adequate post office building but also city mail delivery service.

Mayor F. S. (Dick) Parrish was appointed by the Council to study the problem of regulating the speed of motor boats on Lake Okeechobee at Pahokee Harbor. It was voted to anchor a buoy at the entrance of the breakwater basin with a speed limit of four miles an hour for boats plainly marked on both sides of the buoy.

Mayor Parrish was asked to inform the Internal Improvement Board that the City of Pahokee is withdrawing its application for the sale of 150 acres of State-owned land in the southwest outskirts of the city to a private developer for residential housing.

The proposal of Council that the City of Pahokee annex this land should the State sell it to the highest bidder for residential development aroused a storm of protest from several property owners at a recent council meeting.

## 2 More Road Jobs To Get Resurface

The State Road Department announces two Glades road projects in the forthcoming 1959-1960 budget totalling more than \$200,000, according to County Commission Vice Chairman Paul Rardin of Canal Point.

On heavily traveled State Road 80 that 14 mile section between Twenty Mile Bend and Six Mile Bend (Six miles east of Belle Glade) will get a retreat job at an estimated cost of \$107,000. State Road 715 between the East Shore pump house south of Pahokee and SR 80 south of Chosen will also be retreaded. Rardin said this job is in the budget at an estimated cost of \$96,000. This particular job will complete retreading of SR 715 from Pahokee to Chosen as the other six mile piece was retreaded just a few weeks ago at a cost of \$110,000.

### Jewelry Is Being Sold At Bargain

Philip Maxson is selling out his stock of jewelry in his store in the Tucker building in Canal Point at half price. Many items are splendid graduation gifts and folks will do well to stop by Phillip's place for a looksee. He will keep the store open on Friday and Saturday until all the merchandise is sold. He plans to continue watch repair work.

Bandmaster Robert O. Lampi's 52-piece Pahokee High School Band marched off the field at Cooley Memorial Stadium in West Palm Beach Friday night with all the honors it was possible to receive in the FBA's Florida State Band and Orchestra Contest, Southern Division, the State's champion Class CC high school band.

For the fifth consecutive year and the sixth time in the last seven years the PHS Band was awarded a superior rating in all three phases of the contest, concert, playing, sight reading and marching. It was the only Class CC band this year in the entire State, both Southern and Northern Divisions, to win an all-superior rating by unanimous decision of the judges. Of the four high school bands in Palm Beach County that were eligible to participate in the State Contest the FHS Band alone was rated all-superior.

In the solo and ensemble department of the contest superior ratings were awarded to Robert Lampi, II, trombone, Glenda Faye Russom, alto saxophone, and the PHS Band's woodwind trio composed of Sandra Lampi, oboe, Edwina Humphrey, flute and Jean Brown, clarinet. Bonnili Lair received an excellent rating (second place) for her flute solo.

The top quality of Mr. Lampi's Pahokee High School Band is not only recognized in Florida but also nationally. Again this year for the third consecutive year, the PHS Band will be one of the musical groups featured in the 1959 issue of First Chair of America, a national yearbook which recognizes and honors outstanding high school and college bands and orchestras throughout the nation.

Bandmaster Lampi, who organized the Pahokee High School Band 19 years ago, and the fine musical organization which he has managed to rebuild, train and maintain at a high quality of excellence year after year, despite dim prospects at times, richly deserve the handsome, modern new band building which was completed on the high school campus next to the new gymnasium this spring.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Urged by members of its audience to take some action to acquire additional public beaches, the county commission this week voted to check up on the going price for ocean front property.

Commission Chairman Lake Loyal urged the board to study the possibility of purchasing some small beach front areas and to determine what can be done.

One member of the audience recalled that in years back, large areas of beach land were available for picnics and recreation, but they are fast disappearing — either through erosion or by private purchase. He urged the commission to take immediate steps to reclaim the county's coastline and develop ad-

ditional recreational areas on the ocean.

Commissioner Roy Michael said he believed in the 45 miles of coast line in the county, that no voluntary offers to sell would be made by private owners. He said if the county is able to buy up any beach frontage it would likely be through condemnation proceedings.

Loyal said that one of the main reasons a county sponsored beach erosion bill is being opposed in the state legislature is because there is little public beach left.

## Okeelanta Sugar To Buy Fellsmere

Formal closing of a \$6,000,000 loan to the Okeelanta Sugar Refinery, Inc. was completed Wednesday by the Connecticut Mutual Life Insurance Co.

The transaction is one of the largest ever made in Florida by the Hartford, Conn., life insurance company, although it has been a major investor in the state for more than two decades. The loan agreement calls for repayment over a 20-year period.

According to Mr. Salley, most of the money will be used to purchase the 25,000-acre Fellsmere Farm, north Indian River County.

Okeelanta's management plans to combine the Fellsmere Farm with another of its holdings, the adjacent 20,000-acre Mary-A Ranch. The three farms will operate as a unit producing cattle and sugar.

Previously, Okeelanta's sugar production was limited to 22,397 tons annually by government quota allotments. These provide that only 23 percent of the sugar consumed by Americans can be grown in this country.

The addition of Fellsmere's quota will raise the total to 30,696 tons and make for increased operating efficiency and lower production costs, Mr. Salley said.

The Okeelanta Refinery came to this country as a war baby from Vieques Island off the coast of Puerto Rico. During World War II the U. S. Government decided that mill's island home would make fine target range for naval gunners, so the operation was transported to this country and the mill relocated on the rich muck lands south of Lake Okeechobee. Much of the work of reassembling the mill was performed by Italian and German prisoners of war who were interned in the area.

Okeelanta was purchased in 1952 by the present owners. The home farm covers more than 19,000 acres, 8,325 of which are under water control. Cane is cultivated on 7,220 acres, which yield an average of 40 tons per acre.

Columbia County, named after Christopher Columbus, was formed in 1832. De Soto, on his northward trek through Florida, founded a large village in what was once Indian Territory, and is now the County Seat, Lake City, celebrating its Centennial year May 17 through 23. Rich crops flourish in this county's thousands of acres of fertile farmland. Fruits, berries and nuts are grown commercially. An important part of the county's economy is derived from tourists who heed the call of good hunting and fishing.

In progressive Columbia County, and throughout Florida, the United States Brewers Foundation works constantly to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing "self-regulation" program.

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—5% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

## OUR STATE REPRESENTED ON NATIONAL BEEF COUNCIL

**BEEF PRODUCERS NAME LEADERS**—Officials elected at the annual meeting of the National Beef Council held recently in Denver gather around the new president, Don Bartlett of Como, Mississippi. Left to right—Frank Armer, Phoenix, Arizona, secretary treasurer; Don Leith, Pleasantville, Ohio, central regional vice president; Joe Blazek, Glasgow, Montana, mountain states vice president; President Bartlett; A. Edwin Karlen, Columbia, South Dakota, director; Leonard Scott, Pomona, California, Pacific Coast vice president; R. A. Burghart, Colorado Springs, director.

DENVER—The National Beef Council met recently here to map plans for an intensive promotional campaign to push beef sales at the retail market level. New officers were elected for the coming year.

Harvey McDougal, Rio Vista, California, was named vice president; Jay Taylor, Amarillo, Texas, chairman, advisory committee; W. T. Bonner, Gainesville, Texas, vice president, south central region; R. A. Olsen, Ellsworth, Iowa, vice president, west central region; J. O. Pearce, Okeechobee, Florida, vice president, southeastern region; Mrs. DeWitt Mallory, Bradford, Vermont, vice president, New England region; Mrs. R. A. Burghart, Colorado Springs, director; Jack Milburn, Grass Range, Montana, director; and J. C. Hobert, Bettendorf, Iowa, director.

Don Bartlett, a Como (Mississippi) cattle producer and newly elected president of the Beef Council, said that all indications point to a large sup-

ply of beef on retail counters this fall and winter.

The Beef Council, he pointed out, concerns itself with meat merchandising and beef promotion. The Council is a federated organization composed of cattle producers.

Through the Council, the man who raises the live animal concerns himself with its ultimate sale for the table. The producer, Bartlett said, no longer is content to sit back and turn his product over to a handler to follow through on sales.

The producer is interested in promoting his product to the consumer, and it is through promotional campaigns undertaken by the National Beef Council and State Beef Councils that this is being done.

The areas in which the National Beef Council works to promote beef sales are direct approach to the consumer, enlisting help of allied industry, store promotions for retail meat dealers, and promotion of beef to the restaurant trade.

and there are about 100 others yet to be studied to determine their merits, he said.

Representative Roberts has also introduced a "celery enabling act" which permits farmers to enter into a marketing agreement for sale of celery.

### Package Vacation To Boost Business

MIAMI—Reduced rates of airlines and railroads serving Florida have established Sunshine State package vacations as one of the best buys in the nation.

Latest reduction in airline service is the 25 per cent slash by Eastern, National and Northeast Air Lines in night coach fares. Typical fare between New York and Miami on the Monday, Tuesday and Wednesday night flights is now \$35.10.

Seaboard Air Line Railroad is offering a seven days and six nights package plan featuring a Miami Beach oceanfront hotel. The plan includes entertainment and is styled to offer vacationers deluxe transportation at low rates. Atlantic Coast Line railroad is offering a similar plan.

An 11-day tour is also available from Greyhound. The tour includes visits to St. Augustine, Marine Studios, Silver Springs, Tampa, St. Petersburg, Cypress Gardens and Bok Tower, five nights in Miami and a boat trip.

Trailways' Pleasure Planned Tours offer similar trips to budget minded Florida visitors.

Summer tourist business in Florida is expected to top all records this year as transportation lines, hotels, motels and attractions go all out to attract the budget-minded vacationer.

Roberts said he has received more than 3,000 pieces of mail from Palm Beach County to date, indicating the interest of citizens there in legislation on the calendar and in committee in the House.

Palm Beach County will gain an additional seat in the program, he said.

Introduction and passage in the House of the Interstate Highway Billboard act which was endorsed by the Florida Federation of Garden Clubs and the State Road Department was a highlight of the Palm Beach Lawmaker's activities during the week.

He also helped pass a bill he introduced earlier providing for an auditing and appropriations interim committee which is designed to provide a closer check on state agency spending. The senate is expected to move it through rapidly. It resulted from an interim study of a legislative Council Committee on spending.

Roberts said he has received more than 3,000 pieces of mail from Palm Beach County to date, indicating the interest of citizens there in legislation on the calendar and in committee in the House.

Some 40 local bills have been introduced by the delegation so far,

## Christian Science Group Of Canal Point

Mankind's need for spiritualization of thought will be emphasized in Christian Science churches Sunday in the Lesson-Sermon entitled "Mortals and Immortals."

Bible selections will include the following from Philippians (2:14, 15): "Do all things without murmurings and disputings: That ye may be blameless and harmless, the sons of God, without rebuke, in the midst of a crooked and perverse nation, among whom ye shine as lights in the world." A correlative passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (265:5): "Mortals must gravitate Godward, their affections and aims grow spiritual, —they must near the broader interpretations of being, and gain some proper sense of the infinite, —in order that sin and mortality may be put off."

The Golden Text is from Romans (9:8): "They which are the children of the flesh, these are not the children of God."

## AIR CONDITIONING costs so little...saves so much

There's really no reason why your family shouldn't enjoy cool comfort all summer long. No reason to suffer muggy discomfort and sweltering, sleepless nights. Air condition your home today. Eventually...so why delay?

SAVES HEALTH—Filtered air blocks out dust and pollen, brings relief from allergies... safeguards youngsters from "prickly heat." Right temperature bolsters appetites... protects energy.

SAVES CLOTHING, rugs, books, luggage... because air free from excess moisture prevents musty, moldy odors and mildew damage.

SAVES CLEANING BILLS because air conditioning cleans the air—dust can't blend with air moisture to form a film of soil.

SAVES "GOING-OUT" SPENDING — provides cool comfort for stay-at-home entertainment. Closed windows lock out street noises, for quiet relaxation.

You save in many ways. Air conditioning is the Biggest Bargain in your budget... and it adds to a home's resale value.

## Make your dream house come true! It's easy —through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds. Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.93 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 3 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

## Palm Beach County Needs Payrolls

Efforts to replace loss of a million dollar payroll which will come about with closing of Palm Beach Airforce Base, were launched by the county commission this week.

Commission Chairman Lake Loyal called on the board to consider budgeting funds for the purpose of encouraging new industry to come to Palm Beach County.

Loyal said the county's economic future will become acute when the base closes—about July 1.

"All areas are interested in new industry, where ever they locate," Loyal said and urged the board to do everything possible to bring new incomes into the area.

Vice Chairman Paul Rardin said he could sum up the situation very simply "Palm Beach County needs payrolls. Let's step out and put our shoulder to the wheel."

Commissioner Kenneth Foster said industrial promotion should be a joint project for the commission, Chambers of Commerce from all sections and the Resources Development Board.

Chairman Loyal named himself, Commissioner Foster and Commissioner Roy Michael, Jr., as a special committee to work on the project.
